ELEVATOR

A revolutionary elevator solution that simplifies projects, reduces risk, and ensures consistent quality.

Why Choose Us

We provide the only high-quality commercial elevator solution that is delivered on site and set in hours then started up in days. This means:

Time Savings

The elevator arrives fully installed. No delays due to weather, reduces call backs, running in days. Less site congestion.

Safety

There are no fall hazards as the elevator doors arrive installed. No heavy lifting and no scaffolding to set up.

We Make Elevators Simple

We provide drag and drop drawings and engineering. Plus everything for the elevator including the pit ladder and pit electric.

Innovative High Quality Solution

The Resolute Elevator System is more an elevator; it is a transformative approach that improves the efficiency, cost-effectiveness, and overall experience of elevator installation in the modern construction landscape.

By prioritizing safety, quality, and collaboration, it creates a win-win scenario for developers, architects, contractors, and building owners alike.

It is time to consider this revolutionary product for your next project.

Resolute Benefits

Developers and Owners

1. Controlled Costs: Fixed pricing leads to predictable budgeting.
2. Time Savings: Faster project completion timelines.
3. Lower Risk: Reduced liability associated with defects.
4. Lower Cost of Ownership: Savings with non-proprietary components.

General Contractors

1. Integrated Approach: Fewer trade coordination complexities. Fewer call backs.
2. Streamlined Communication: One contact for the elevator, hoistway, engineering and drawings.
3. Simplified Scheduling: Predictable timelines for installations. We deliver when you need the unit and start up in less than a week.
4. Improved Risk Management: Proactive management of potential risks.

Design Professionals

1. Integrated Structural Design: Comes equipped with a structural steel hoistway designed by licensed structural engineers.
2. Streamlined Submittal Process: Incorporating the Modular Elevator System into project designs is further simplified by the availability of pre-designed layouts and 3D Revit models.
3. Comprehensive Interior Design Options.
4. Incorporation of Essential Components: Pit lights, service receptacles, disconnects, and structural support members.
5. Support from Experts: Resolute Elevator's team has experienced design professionals with decades of experience.
6. Flexibility for Diverse Applications: Can be used for any low or midrise project.
